

Chronic Condition Health Home Learning Activities and Topics 2022

The Health Home Learning Collaborative is tasked with the development of learning topics and activities. Every Health Home Webinar is held the 3rd Monday of every month from 3pm – 4pm with two face-to-face Collaboratives (spring/fall).

Date	Topic
January 24*	<p>CRW data / strengths and areas for improvement overall</p> <p><u>Objectives:</u> We will review strengths and areas of opportunity for improvement related to the Chart Review Workbook process. This webinar will focus on documentation standards including use of SMART goals and SMART objectives for creation of member care plans and crisis/self-management plans for both physical health and behavioral health conditions. We will address educating members on alternatives to the emergency department for care using their crisis plans in place. We will discuss the importance of ongoing medication reconciliation with members at all transitions of care; discuss communication and collaboration of community service providers.</p>

March 21	<p>Care Coordination: Understanding Long-term Care Services, Medicaid Programs, Mental Health & Disability Service Regions, & Court-ordered Services</p> <p><u>Objectives:</u> Health Homes arrange care with other qualified professionals for all the member's health care needs. This includes care for all stages of life, acute care, chronic care, preventive services, long-term care, and end of life care. This webinar will focus on the process of making referrals for long-term care including waivers, Intermediate Care Facilities for Individuals with Intellectual Disabilities (ICF-ID), and nursing facilities. Health Homes will also review the specific types of Medicaid, understand the role of Mental Health and Disability Service (MHDS) regions, and understand the role of court orders and mental health advocates. (Reference: Care Coordination)</p>

April 11	<p><u>Face-to-Face:</u> Services and Supports <u>Objectives:</u> Health Homes provide resource referrals or coordinate access to recovery or social health services available in the community which includes understanding eligibility for various healthcare programs, disability benefits, and identifying housing programs. During this presentation, Health Homes will review how to assist members in accessing other Medicaid services (e.g., Home health, durable medical equipment (DME), vision, hearing, dental, transportation), housing options, community resources, and for members transitioning out of Medicaid, identifying supports and resources. (Reference: Care Coordination and Referral to Community and Social Support Services)</p> <p>Team-based Care <u>Objectives:</u> The Health Home program has a designate provider to deliver personalized, coordinated care for individuals through providing the six core Health Home services. Well implemented team-based care has the potential to improve the comprehensiveness, coordination, efficiency, effectiveness, value of care, and satisfaction of members and staff. During this presentation, Health Homes will review the components of team-based care and share their own successes with team-based care and opportunities for further success. May 16	<p>Building a relationship with school & providers <u>Objectives:</u> In order to work effectively and efficiently with our special education programs (SPED) at the high school and community college level, our health homes must understand how SPED programs provide support to our health home members. During this webinar, we will explore what programs are available to our members in their community including high school level and at Des Moines Area Community College. In addition, we will discuss how the health home can work with and support our members involved with SPED programs. We will also review the differences between an individualized education program (IEP) and the 504 Accommodation. While these educational plans can be helpful for certain students, they cannot be used interchangeably.</p>

June 20	<p>Comprehensive Assessment Process - engaging members, completing the comprehensive assessment & social history</p> <ul style="list-style-type: none"> • Pediatric / Family • Adult

	<p><u>Objectives:</u> For each enrolled member, Health Homes complete a comprehensive assessment at least every 12 months or more frequently as needed that includes a review of physical and behavioral health components, medication reconciliation, functional limitations, and appropriate screenings. Assessment also includes current and historical information and assesses the member's readiness for self-management. In this webinar, Health Homes will review the components of the Comprehensive Assessment and Social History and its integration with the plan of care. (Reference: Comprehensive Care Management)</p>

July 18	<p>Risk Stratification <u>Objective(s):</u> Health Homes monitor member gaps in care and predicted risks based on medical and behavioral claims data. Through coordinated and integrated care, Health Homes conduct interventions as indicated based on the member's level of risk. During this presentation, Health Homes will review the background and purpose of risk stratification including the role of electronic health records in identifying level or category of risk. Health Homes are encouraged to share how they use risk stratification in their practice. (Reference: Comprehensive Care Management)</p>

September 13	<p><u>Face-to-Face:</u></p> <p>Motivational Interviewing / Client Follow Through <u>Objectives:</u> Health Homes use Motivational Interviewing and other evidenced based practices to engage and help members in participating and managing their own care. During this webinar, Health Homes will review the components of Motivational Interviewing, Whole Health Action Management (WHAM) and Wellness Recovery Action Plan (WRAP) and share how they have successfully implemented these programs. (Reference: Health Promotion, Individual and Family Support)</p>

	<p>Person-Centered Thinking</p> <p><u>Objectives:</u></p> <p>Person centered thinking is a hands-on learning and skill development training. The curriculum includes exploring skills that are geared toward building our internal capacity to help individuals take positive control in their lives, and support efforts to improve person-centered practices.</p> <p>The following person-centered tools will be reviewed:</p> <ul style="list-style-type: none"> • MAPS (Making Action Plans) • PATH (Planning Alternative Tomorrow with Hope) • PFP (Personal Future's Planning) • WRAP (Wellness Recovery Action Plan) • 4+1 Questions • Relationship Maps • Routines and Rituals • Good Day / Bad Day • Learning Log <p>Treatment Plan Goals</p> <ul style="list-style-type: none"> • Pediatric • Adult <p><u>Objectives:</u></p> <p>Health Home create a person-centered care plan with the member and individuals chosen by the member that addresses the needs of the whole person. Health Homes monitor and intervene on progress of treatment goals using holistic clinical expertise. In this webinar, Health Homes will focus on how to write individualized, meaningful goals with the member. Examples will include goals for both adult and pediatric populations. (Reference: Comprehensive Care Management)</p>
